**Global Mobility Service President/CEO Nakashima Selected as BEST 10
in Forbes JAPAN'S START-UP OF THE YEAR 2021
for Three Consecutive Years
-Recognized for solving social challenges globally with its FinTech and IoT
business model**

Global Mobility Service Inc. (Headquarters: Minato-ku, Tokyo; President/CEO: Tokushi Nakashima; hereinafter "GMS"), a FinTech startup committed to financial inclusion by providing IoT-based credit-creating services to the world's 1.7 billion poor and low-income people who cannot afford to own a car, has announced that President/CEO Nakashima was selected as one of the BEST 10 in Forbes JAPAN'S START-UP OF THE YEAR 2021 for three consecutive years, thereby being inducted into the Hall of Fame.

JAPAN'S START-UP OF THE YEAR 2021 is an award ceremony held by Forbes JAPAN, a leading Japanese business magazine, to recognize aspiring entrepreneurs who will play a leading role in the future of Japan. GMS was highly evaluated for its unique business model of FinTech and IoT, its global scope that extends to Japan and ASEAN countries (Philippines, Cambodia, Indonesia), and its business that focuses on social issues and addresses the needs of the people.

GMS will continue to promote truly sustainable business in Japan and the ASEAN countries by creating economic rationality while solving social issues such as poverty, which is considered to be one of the most important issues of the SDGs. To find out more about GMS' initiatives, please see this video (https://youtu.be/UV_QIm1w-lc).

Please look forward to the future efforts of GMS.

■About Global Mobility Service Inc.

With our vision "We create a system in which all hard workers are recognized", GMS is a FinTech startup working for financial inclusion by creating credit for the 1.7 billion poor and low-income people in the world. By analyzing vehicle data (driving status, speed, etc.) collected by the MCCS, an IoT device equipped with technology to remotely control vehicles, and financial data (payment status, etc.) obtained in conjunction with financial institutions, we visualize the creditworthiness of drivers and create opportunities to utilize financial services such as loans and leases for those who are unable to qualify for conventional credit screening. As of October 2020, we have raised a cumulative total of 5.6 billion yen in recognition of our business model of addressing social issues by creating job opportunities for poor and low-income people in Japan and in ASEAN countries (Philippines, Cambodia, Indonesia). We will continue to contribute to the international community towards the realization of a prosperous society through a business model that creates economic rationality in solving problems such as poverty.
