**Global Mobility Service Receives the METI Minister's Award
at the Japan Open Innovation Prize Awards**

<https://www.global-mobility-service.com/en/>

Helping to provide financial access towards the 1.7 billion poor and low-income population who cannot afford cars, Global Mobility Service Inc. (Headquarters: Minato-ku, Tokyo; President/CEO: Tokushi Nakashima; hereinafter referred to as "GMS"), a financial inclusion type FinTech startup that provides credit creation services by utilizing IoT technology has been working on its aim "To create a new society through innovation and utilization of IoT x FinTech". GMS is proud to announce that this aim has been recognized by the government and received the METI (Ministry of Economy, Trade and Industry) Minister's Award at the 2nd Japan Open Innovation Prize Awards hosted by the Cabinet Office. This program mainly led by GMS, with the help of Toppan Printing Co., Ltd., Kawasaki Heavy Industries Ltd., and Ricoh Leasing Co. Ltd., made this Open Innovation Award possible.

Mr. Tokushi Nakashima; President/CEO of GMS,
Mr. Yoshinori Kanehana; Chairman and Executive Director of Kawasaki Heavy Industries Ltd.

The Japan Open Innovation Prize promotes and recognizes open innovations in Japan that aim to create new values and solutions to various social needs. Programs and projects that are highly innovative and have a potential to lead or be a role model in the future are being recognized and awarded to further enhance and accelerate open innovation.

Worldwide, the system introduced by GMS helps create opportunities for 1.7 billion people who do not have access to financial services. By collaborating with major infrastructure enterprises, finance

enterprises, mobility manufacturers, LGUs and other stakeholders, GMS was able to create economical rationalism and help solve social issues. The system resulted in establishing a sustainable global ecosystem and an ideal business model spearheaded by Japan, which were highly evaluated among judges of the award, resulting in the METI Minister's Award - Japan Open Innovation Prize. The prize ceremony was held with a limited number of audiences as part of the COVID-19 measure on February 25th, 2021.

GMS will continue to promote truly sustainable business in Japan and in countries part of ASEAN by creating economic rationality while solving social issues such as poverty, considered to be one of the most important issues of the United Nations' Sustainable Development Goals (SDGs). To find out more about GMS' initiatives, please see this video (<https://youtu.be/P8TYhyZQuP0>).

Please look forward to the future efforts of GMS.

■About Global Mobility Service Inc.

With our vision "We create a system in which all hard workers are recognized", GMS is a fintech startup working for financial inclusion by creating credit for the 1.7 billion poor and low-income people in the world. By analyzing vehicle data (driving status, speed, etc.) collected by the MCCS, an IoT device equipped with technology to remotely control vehicles, and financial data (payment status, etc.) obtained in conjunction with financial institutions, we visualize the creditworthiness of drivers and create opportunities to utilize financial services such as loans and leases for those who are unable to qualify for conventional credit screening. As of October 2020, we have raised a cumulative total of 5.6 billion yen in recognition of our business model of addressing social issues by creating job opportunities for poor and low-income people in Japan and in ASEAN countries (Philippines, Cambodia, and Indonesia). We will continue to contribute to the international community towards the realization of a prosperous society through a business model that creates economic rationality in solving problems such as poverty.
