

**GMS, Uniadex and DNP Establish Philippine-based
Logistics and Delivery Matching Service Joint Venture**

Tokyo, March 14, 2022, Global Mobility Service Inc. (GMS), Uniadex Ltd. (Uniadex) and Dai Nippon Printing Co., Ltd. (DNP) are pleased to announce the establishment of a Philippines-based logistics and delivery matching service joint venture (JV). The JV, to be known as 3Q DASH TECHNOLOX, INC., was initiated on February 4, 2022 and has been launched in anticipation of further expansion in logistics demand, and continuous growth going forward amid the Covid-19 pandemic.

1: MCCS is a GMS-developed system that can specify the location of a car and remotely control the car engine safely.

JV Background

The Philippines has witnessed increased logistics flows due to several years of solid economic growth. Numerous delivery-related time and cost challenges have arisen, however, including shortages of delivery drivers, severe and chronic congestion in the city center, and delays in the delivery mechanism infrastructure. At the same time, due to the impact of the ongoing Covid-19 pandemic, online shopping and food deliveries have seen sharply increased usage, and delivery-related challenges are becoming more serious.

In anticipation of overcoming these challenges, and of expected continuous growth of the delivery in the future, the three partners have established a Philippine-based JV, and will provide a logistics and delivery matching service targeting Last Mile logistics².

2: Last Mile logistics. In the logistics industry, the last one mile refers to the delivery of parcels and packages from the final delivery base to end users, such as residences and work places.

Overview of New JV

Company name	3Q DASH TECHNOLOX, INC.
Representative	Philip B. Sanvictores President
Location	6/F Electra House Bldg., 115-117 Esteban Street, Legaspi Village, Makati City 1229, Metro Manila Philippines
Business	Internet-driven matching service between shipper and delivery drivers in the logistics and delivery area, along with other related services
Capital	₱ 11 million (approx. \$215,000) as of February 4, 2022
Shareholder structure	Netmarks Philippines, Inc. (Uniadex affiliate). DNP Asia Pacific Pte Ltd. (DNP subsidiary). Global Mobility Service Philippines, Inc. (GMS subsidiary).
Date of establishment	February 4, 2022

JV Business

- Uniadex Philippines-based subsidiary will take the logistics delivery matching system developed by DNP, and integrate it into a cloud environment, which the new JV will provide to shippers and delivery drivers, as a delivery matching platform.
- GMS provides employment opportunities and support for improved living conditions for drivers of three-wheeled motorcycle taxis through FinTech services. Under the new JV such drivers will mainly be responsible for the delivery of parcels and packages.
- By providing this service, the new JV will provide shippers with merits, such as reducing the workload associated with delivery arrangements, securing delivery drivers, shortening delivery time and the realization of appropriate delivery charges. In addition to creating new employment opportunities for drivers, support will also be provided to help overcome poverty challenges, and improve living conditions.

Through the business of the new JV, the partners aim to achieve the following items from among the Sustainable Development Goals (SDGs) set by the United Nations as goals to be achieved by 2030.
