

**Global Mobility Service receives the Most Outstanding Award
“Nikkei Award” at the FIN/SUM2022 Impact Pitch**

<https://www.global-mobility-service.com/en/>

Global Mobility Service Inc. (Headquarters: Minato-ku, Tokyo; President/CEO: Tokushi Nakashima; hereinafter referred to as "GMS") is proud to announce that the company has received the most outstanding award “Nikkei Award” at the “FIN/SUM2022 Impact Pitch”. The event that was organized by Nihon Keizai Shimbun (Nikkei Newspaper) and the Financial Services Agency for startups that contribute to solve social issues.

As difficult challenges such as climate change and widening inequality hit the world, the role of finance is drawing attention to solve these issues. Fintech has the potential to bring about innovation in various situations and open up a new era. In which, FIN/SUM2022 was held to create a revolutionary change in the economy by having two-way players in both “business” and “society” show its capabilities on how to solve these challenges.

Impact Pitch was organized for the strong and influential FinTech startups to focus on the following questions: “What social issues are we trying to solve?”, and “What will we do if we raised 20 billion yen?” A new kind of pitch that has never existed before. GMS was recognized and has been awarded with the “Nikkei Prize” for its social significance attributable to its global growth and promotion of financial inclusivity.

As a global startup specializing in financially inclusive FinTech from Japan, GMS works towards

building a fairer world that values workers equally. Through our philosophy “We make people happy through the provision of mobility service,” we create economic rationality while solving social issues including poverty, which is recognized as the most important issue among the SDGs. We will promote a truly “sustainable” business model and contribute to local societies through our activities in Japan and ASEAN countries. For more information about our business, please see this video (<https://youtu.be/s3phX7twqaA>).

Please look forward to the future efforts of GMS.

■About Global Mobility Service Inc.

With our vision "Build a fairer world that values workers equally", GMS is a FinTech startup working for financial inclusion by creating credit for the 1.7 billion poor and low-income people in the world. By analyzing vehicle data (driving status, speed, etc.) collected by the MCCS, an IoT device equipped with technology to remotely control vehicles, and financial data (payment status, etc.) obtained in conjunction with financial institutions, we visualize the creditworthiness of drivers and create opportunities to utilize financial services such as loans and leases for those who are unable to qualify for conventional credit screening.

As of October 2020, we have raised a cumulative total of 5.6 billion yen in recognition of our business model of addressing social issues by creating job opportunities for poor and low-income people in Japan and in ASEAN countries (Philippines, Cambodia, and Indonesia). We will continue to contribute to the international community towards the realization of a prosperous society through a business model that creates economic rationality in solving problems such as poverty.
